POLICE BELIEVE MEN ARE ROBBERS

Detective Chase Bringing Hoffman Burglary Suspect Here.

EX-CONVICT UNDER ARREST

Leon Soulard, Thought to be McPherson's Pal. Held at Jail for Investigation,

Detective George Chase will return from Ogden this afternoon with H. R. McPherson in his custody, and who is suspected of having been implicated in robbery of the residence of Henr, Hoffman, 294 east South Temple street Monday night. Leon Soulard, knows to have been a pal of McPherson, and who was released from the state prise: July 4, after a two years' sentence for burglary, was arrested this morning and is held pending an investigation.

McPherson was arrested in Ogder late Monday on information given by James Mullaney, a conductor on the Oregon Short Line. McPherson was a passenger on Mullaney's train, and when near Kaysville the news agent told the conductor that McPherson had told the conductor that McPherson had been trying to dispose of a pair of valuable opera glasses. Conductor Mullaney investigated and after tatking with McPherson grew suspicious of the latter. When Layton was reached the conductor telephoned to the depot police at Ogden to be in readiness at Ogden, and when that city was reached McPherson was arrested. When the Ogden police were informed yesterday of the Hoffman residence burglary they notified the local police and under the suspicion that McPherson was implicated in the recent robberies he will be brought back here.

When Soulard was arrested a considerable quantity of stuff was found in his possession, and the police believe they can connect him with several recent robberies.

PRISONER SIMPLY WANDERED AWAY

Listlessly Shambles Out of Courtroom To Liberty While Tired Policemen Look On.

Trailing along with the mien of a

ourt-room spectator behind the jailer,

and with the eyes of several policemen ooking upon him unconcernedly, Clyde Lloyd, charged with burglary in the second degree, made his escape from custody in the police court room today. His escape was not discovered until his case was called for his arraignment; and the man who had been raignment, and the man who had been there a few minutes before was found missing. When the man was called for, Jailor Wilkinson and other policemen could only look around helplessly. Lloyd, awaiting his arraignment under the state charge of having committed burglary by entering the room of John Lagondakos, 558 west Second South street, July 23, was held in the custody of the police. With the other city prisoners he was brought into the courtroom this morning. After the disposal of the city docket, Jailor Wilkinson removed the city prisoners from the son removed the city prisoners from the court room, and as the line went out, Lloyd trailed along behind until he reached the head of the stairway. That was the last seen of Lloyd, who lost no time in scurrying to the street.

MISS GATES DEPARTS.

Leaves Tomorrow to Begin Winter Work in Berlin.

Miss Emma Lucy Gates came down rom Brighton yesterday morning and will leave for Berlin on the Oregon Short Line train tomorrow morning. She sails from New York on the Kaiser Wilhelm II on Aug. 2, and immediately begins rehearsals for her fall and winter season at the Royal Opera House. Speaking of her novel concert in Brighton on the night of the 25th, Miss Gates said:

"I never expect to appear again under circumstances so unique and interesting. The goal of every American singer who is engaged abroad, I suppose, is the Metropolitan Opera House in New York. But even if it should be my happy lot ever to reach that goal, I don't expect to experience any greater thrill than I had before that enthusiastic audience in the tops of the mountains on Pioneer day."

As to her plans for her next summer vacation, Miss Gates said she was as yet full of uncertainty. She had sung for Sigfried Wagner, who had spoken to her of appearing at Bayreuth at the annual revivals of his father's operas, and had also had an offer from the manager of His Majesty's theater, Lon-

Mrs. Clarissa Ames Pugsley, the widow of Phillip Pugsley, was 82 years old. She was born in Addison county, Vt. on Dec. 18, 1827. She was one of the pioneers and suffered the trials and hardships of the Latter-day Saints in Nauvoo and coming across the plains. Until her death she retained all her faculties and took a lively interest in the ward affairs in which she lived. Mrs. Pugsley was at the home of her daughter. Mrs. J. S. Barlow when she died. She is survived by two children, Mrs. Barlow and George Pugsley.

INTERURBAN MEN SEEK FRANCHISES

Committee of Fifteen Meets and This Morning's Practise Shows **Outlines the Preliminary** Campaign Plans.

Further Steps Towards Building Electric Road Taken at This Morning's Conference of Promoters.

Further steps looking to the building of an electric interurban railway between Salt Lake City and Payson were taken this morning when the committee of 15 men named at the last meeting of those interested in the pro-ject held at Provo July 14, met in the office of the Houston Realty com-pany of this city.

The committee is composed of repre-

sentative men from each of the towns in Sait Lake and Utah counties through which the proposed line will pass. Those present at this morning's meeting were present at this morning's meeting were as follows: Simon Bamberger, president of the Salt Lake & Ogden rallway; J. W. Houston, president of the Houston Realty company; A. H. Vogeler, president of the Vogeler Commission company; W. W. Armstrong, president of the Utah Copper bank; William R. Wallace and Alvin S. Sundberg, of Salt Lake City; J. B. Keeler, and John DeGrey Dixon, of Provo; Abel J. Evans and C. W. Earl, of Lehi; James H. Clark, of American Fork; J. S. McBeth, of Payson; Geo. A. Hone, of Benjamin, and H. T. Reynolds, of Springville.

UTAH COUNTY FIRST. After some discusion it was decided that the committee go ahead with the work of securing franchises through the different cities and towns of Utah county and through the county itself for the right of way and for station grounds for the new electric line. The members of the committee from each members of the committee from each town are in charge of the arrangements for such franchises and rights of way. The same temporary organization, in the form of the committee of the whole, was maintained pending further developments, and while no date was set for the holding of the next meeting, it was understood that meetings would be called by the committee as developcalled by the committee as develop-

it was understood that meetings would be called by the committee as developments might require.

John DeGrey Dixon, secretary of the committee, at the conclusion of the meeting, said that the committee felt much encouraged by the feeling of favor toward the proposed new line exhibited by the people of Utah and Salt Lake counties. "The committee will continue to work vigorously in the matter of securing franchises for the road," said Mr. Dixon. "The project seems to meet with general favor throughout the two counties, and the committee feels much encouraged. We shall work to obtain franchises in Utah county first, and when it is demonstrated that the line will be a success from the Utah county end, we shall come to Salt Lake county and ask for similar privileges. The matter of permanent organization and incorporation is also under consideration. And while the whole project is yet in its preliminary stages, it is a practical certainty that the line from Payson to Salt Lake will be built, and it is just a matter of time and hard work."

Back From the East—George D. Alder has returned from his trip to Burlington, Vt. He says it was cool and pleasant east of the Missouri river, with sufficient rain to moisten the crops. The hot country was encountered as soon as the westbound train struck Omaha, and then how to stand the heat was a problem. Mr. Alder says business conditions in the east are in satisfactory shape; also, that eastern moneyed men are coming to depend more and more on the west, which up to within a few years was not given the serious consideration now accorded it. The assistance of western banks in particular, is now appreciated more than ever. Back From the East-George appreciated more than ever.

Civil Service Exam—A civil service examination is announced for Aug. 24-25, for a marine-engine draftsman, at a salary of \$1,800 per year, in the office of the chief of engineers in the war department at Washington. Applicants must have experience in mathematics, and drafting, and knowledge of materials of construction and must be over 18 years of age on the date of examination.

Marked Increase in Humidity— There is a marked increase in the local humidity, making the atmos-phere muggier and closer than ever. The record today is 58 per cent, as compared with 34 per cent for Tuesday, and 21 for Monday.

Pulled Through the Drouth-Sample bags of threshed dry farm wheat are being exhibited at the offices in this city of the Robbins Mill & Elevator company, as showing that the drouth has not damaged the crop to any appreciable extent. The kernels are full and hard, and weigh 61 pounds to the bushel.

Out Look at Parowan—Banker Clark of Parowan is in the city on a business trip. He states that while the people of the Parowan district have felt the drouth severely the crops will be better than might have been expected. Many of the wool men were wise enough to take last year's prices and are complimenting themselves accordingly. Quite a number of them held their wool and will be wiser from their experience.

GOOD SCORES BY UTAH RIFLE TEAM

Men Are Gaining Efficiency.

PAYSON TO SALT LAKE CITY NEW RIFLES HAVE ARRIVED

Springfields of Perfect Construction Now in the Hands of the Team for Testing.

The crack shots who are assembled at Fort Douglas this week did some good work this morning when the 600 yard slow fire and the skirmish fire was held. The men are now using the old star gage Springfields and are making good, but this afternoon 20 of this Each man on the team will be assigned a new rife and the same course of finding elevations will commence this afternoon. The rifles are of extra fine quality and the score of the team should greatly improve. Coach Walthall is pleased that the rifles arrived in time to locate the zero, as the team will not be put out as much as was expected.

not be put out as much as was expected.

The shooting this morning was pleasing, as the team average at 600 yards slow fire was above the 40 average and the skirmish average close to 651, which is only a few points short of the average which will be satisfactory for the Perry shoot. Coach Walthail and Corporal loerger will give instruction to the men and watch them closely during the first few days firing with the new rifles. The weather conditions could not have been better than they have been and if they continue the men will learn their rifles. It is hoped that the conditions will change along toward the close of the week, as practise in the use of windage is essential, for the condition of the wind at Perry is seldom the same any five minutes.

The tean as a whole is improving and by the time the national match comes around. Utah will be able to watch with interest the result of the shoot. The team is becoming much stronger than last year's team and a place in the prize money now seems certain. There were only 133 points difference between the winning team in class C and the Utah team which came seventh. This difference could easily be made up on a single range.

TEAM NOW COMPLETE.

It was expected that an elimination would have to be made the latter part of the week, as three extra men were members of the squad, but since that time the three have dropped out. Sergit. Wilson of the Signal corps who came eighth in the competition can not take the trip, as he will be unable to leave his work. Private Bayliss of C company was ineligible as he has been a member of the guard only three months, when one year is the requirement. Wednesday Sergt. Gardner dropped the squad for similar reasons as Wilson. This leaves but 15 men who will compose the team. The elimination was to have commenced Thursday morning when all scores would have been recorded. The loss of Wilson and Gardner will be greatly felt as both are excellent shots. Gardner has shot on the Petry team for the past two years while Wilson made Perry last year.

The result of the shooting this morn-TEAM NOW COMPLETE.

The result of the shooting this morn-The result of the shooting this morning finds Sergt. Anderson of H company, Salt Lake, in the lead. He tied Capt. Kneass at 500 yards slow fire with 46 out of 50, but passed all on the skirmish run, making 86 and 82 out of 100. Lieut. Coolidge came second in the skirmish with 78 points and Capt. Kneass third with 72. Sergt.-Maj. Nielson came second at 600 yards with 45.

MARIS STILL IN JAIL.

Application for Writ of Habeas Corpus Denied by Judge Morse.

The application for discharge of Peter Maris, a Greek arrested by the police department last Sunday on descriptions furnished by the New York police, on a writ of habeas corpus was denied by Judge Morse in the Third district court this afternoon. The proceedings was merely formal, however, and Albert Olsen, attorney for Maris, will argue the matter before the court again tomorow. The ground for bringing habeas corpus proceedings was that Maris had been arrested without a warrant, and while the arrest was made legal this afternoon by the service of a warrant. Atty. Olsen will attack the arrest tomorrow on the ground of insufficiency of evidence on which to bold the prisoner. Maris is believed to be the man wanted in New descriptions furnished by the New

York for stealing \$4,800 in cash and securities from George Mettas, anoth-er Greek, from a room in the Waldorf-Astoria hotel.

RAISING THE MAINE.

Appropriation May be Used to Make a Preliminary Survey.

Washington, July 27.—Atty, Gen. Wickersham had decided that the \$300,000 appropriation made by the last Congress to raise the battleship Maine was available for any work that may be necessary in that connection.

There was a question as to whether any of the money could be used for preliminary work as a survey. Mr. Wickersham decided it was the intent of Congress that the money be used for all purposes connected with raising the ship even to the burial of the dead in Arlington national cemetery.

This decision removes the snag which threatened to stall the work on the next session of Congress. Brig. Gen. Bixby, chief of engineers, will recommend a survey board of engineers to Gen. Oliver, acting secretary of war, some time this week. This board will make a preliminary survey of the wreck and decide on the best means to raise it. The various proposals from private, persons and civilian engineers will then be considered.
